**1922 CONTRACT PRICE LIST OF VINE  
SEEDS AND SEED CORN**

## ANNOUNCEMENT

---

The prices which prevail throughout this, our thirty-fifth annual Price List, are on a parity with the pre-war valuations, consequently we feel disposed to urge the Seed Trade in general to return to the less chaotic and more stable method of placing growing contracts with reliable wholesale growers, among whom we hope to maintain our position as one of the leaders for better seed and more comprehensive service.

\* \* \* \* \*

An acreage will be planted of each variety to produce under ordinary conditions the various amounts required to fill all contract orders, and in no instance will any carry-over stock be used on contract orders, unless it may be mutually agreeable to our customers and ourselves. In case of shortages a sufficient reservation will be made for planting stock, after which all orders will be filled by an equal pro rata division of the entire remaining crop delivered to us by our various growers, all orders being treated alike.

Orders will be accepted for the growing of special stocks or new varieties at reasonable prices if planting stocks are furnished.

Orders for 25 pounds of a single variety of vine seeds will be filled at regular quotations; for orders of less than 25 pounds of a single kind, add two cents per pound.

All contract prices are for prompt acceptance, and are subject to stenographic errors and omissions, fire and all other contingencies beyond our control.

**TERMS**—Field corn, cash on receipt and examination; sweet corn and vine seed, sixty days' acceptance, or if discounted, 1 per cent in thirty days from date of shipment. All prices are based on delivery f. o. b., Waterloo, Neb., or Rocky Ford, Colo., our option.

From our warehouse we turn out two grades of corn: "Commercial" on which above prices are based; "Choice" at 30c per bushel advance over above price. Write for particulars.

**AIR DRIED CORN**

We expect to deliver as dry corn as the season affords and at prices named will dry all corn showing over 16 per cent moisture without additional charge, but these prices do not carry artificial drying of corn showing 16 per cent or under of moisture. Our drying plant has a capacity of 800 bushels per ten hours. This has proved a valuable addition to our equipment and will be used at our own expense in case of excessive moisture. Customers wanting their corn dried to 14 per cent moisture or under will be charged 20c per bushel.
